

Oil lubricated compressors

SCREW COMPRESSOR

Pressure range: 7-12.5bar
Motor power: 5.5kW -560kW
Air delivery: 0.5 - 102m³/min

Integrated

Belt driven

Direct driven

ENERGY SAVING COMPRESSOR

Pressure range:7-12.5bar
Motor power: 7.5kW -355kW
Air delivery: 0.7 - 60m³/min

PM VSD

Two stage

DIESEL PORTABLE COMPRESSOR

Pressure range: 7-30bar
Motor power: 33kW-407kW
Air delivery: 3- 35m³/min

Two wheels

Four wheels

Looking for worldwide agent !

Oil lubricated compressors

LOW PRESSURE COMPRESSOR

Pressure range: 1.5-6bar
Motor power: 18.5kW-400kW
Air delivery: 4.1 - 113.5m³/min

132kw 3bar

MIDDLE PRESSURE COMPRESSOR

Pressure range: 14-40bar
Motor power: 7.5kW-355kW
Air delivery: 0.5 - 40m³/min

6m³/min 30bar

ODM COMPRESSOR

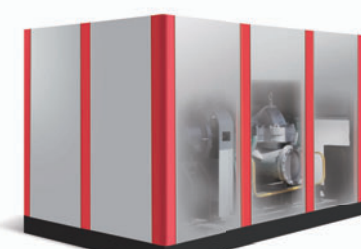

Pressure range: 7-12.5bar
Motor power: 7.5kW -355kW
Air delivery: 0.7 - 60m³/min

Heat recovery compressor

Combined compressor

Steam turbine compressor

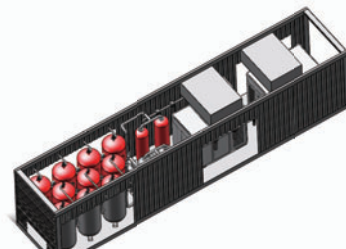

GAS COMPRESSOR

O2, N2, CO2, CH4
Ar, D2, Kr, Xe, and etc.
Air delivery: 2.2 - 22m³/min

GAS compressor

CONTAINER COMPRESSOR SYSTEM

Compressor + tank + dryer +filter system

Oil free compressors

SCREW / SCROLL COMPRESSOR

Pressure range: 7-40bar
Motor power: 2.2kW-250kW
Air delivery: 0.24 - 43m³/min

Scroll compressor

Water lubrication low pressure

Water lubrication middle pressure

Dry oil free

TREATMENT

Pressure range: 7-40bar
Air delivery: 0.5 - 120m³/min

Refrigerated dryer

Desiccant dryer

Blower desiccant dryer

Air tank

PLANT MANAGEMENT

IOT

Service

Pre-sale Service

24hr online multilingual services, providing 100% air solutions.

After Sales Service

Original ELANG spare parts in stock. Professional overseas after-sales technical service team, installation and commissioning guidance are available on site.

Production & Testing

1.Standardized production and 5 times inspections
2.All compressors will pass the 50-60 °C high temperature running test, 1.2 times over-speed & over-pressure test, secondary oil return test, and etc.

OEM & ODM Support

Professional technical and R&D team to provide customers with one-stop complete OEM/ODM compressed air system service.

Training Support

EEIA (Elang Energy Innovation Academy) provides professional technology training and sales support, as well as seminars about the efficient compressed air management.

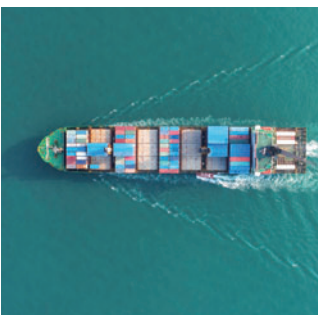

Strict Quality Control System

ISO 9001, CE certificate, TUV certificate, ASME & UL certificate, Energy saving certificate, and etc, all approved.

Prompt Shipment

Professional export service team, promptly update logistics information and customs clearance documents at any time.

Energy saving compressed air solutions for every industry

ELANG has been developing, producing and planning energy saving air system since 1999, exporting to more than 100 countries with superior technology and services.

ELANG committed to be the **E**nergy saving **L**eaders **A**nd **N**ational **G**lory in compressed air industry. We has established "EEIA" to provide training for loyal partners, to create greater value for users, and to make greater contributions for energy conservation & emission reduction.
